**MASSACHUSETTS**

This report is based on studies performed at Lincoln Laboratory, a center for research operated by Massachusetts Institute of Technology. The work was sponsored by the Department of the Air Force under Contract F19628-90-C-0002; in some cases, the work was supported under other contracts.

This report may be reproduced to satisfy needs of U.S. Government agencies.

The ESC Public Affairs Office has reviewed this report, and it is releasable to the National Technical Information Service, where it will be available to the general public, including foreign nationals.

This technical report has been reviewed and is approved for publication.

FOR THE COMMANDER

Gary Tetungian  
Administrative Contracting Officer  
Directorate of Contracted Support Management

## **FOREWORD**

Volume 19 of Unclassified Publications of Lincoln Laboratory lists reports published from 1 January to 31 December 1993, as well as updated information on earlier publications.

Documents listed herein are generally no longer available from Lincoln Laboratory. Qualified Defense Technical Information Center (DTIC) users may purchase copies through normal DTIC channels. Others may purchase photocopies or microfiche from the U.S. Department of Commerce, National Technical Information Service, Springfield, Virginia 22161. When ordering, the six-digit AD number should be cited.

## **ACKNOWLEDGMENTS**

The Library and Information Services Group and the Publications Group made this publication possible. The programming efforts of Peter A. Krumsiek of Administrative Information Services, as well as contributions from others who worked on this publication, are appreciated.
